RECYCLING OF OLD VEHICLES

It is our duty to protect the environment.

Mitsubishi Motors designs and produces high quality vehicles and components aiming to provide our customers with durable motor vehicles, and excellent services to maintain your vehicle in an optimum running condition. We have the highest respect for the environment and use materials which may be recycled and re-used after your Mitsubishi Motors vehicle has come to the end of its economical life. After a long working life we will take your vehicle back and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles (up to 3.5t GVW) sold after 1st July 2002, will be taken back free of charge from the last owner, at one of the designated take back points, provided the vehicle contains all major components and is free of waste. From 1st January 2007, this applies to all Mitsubishi Motors vehicles irrespective of the sold date. A network of collection points is

available to receive Mitsubishi Motors End-of-Life Vehicles, to ensure your vehicle will be recycled in an environmentally friendly manner. At the same time, the possibilities for the recycling of vehicles and vehicle components are continually being evaluated and improved, aiming to the achievement of even higher recycling percentages in the future.

The European End-of-Life Vehicles Directive and the free take back of End-of-Life Vehicles are applicable in all European Union member states. The transposition of the End-of-Life Vehicles Directive into national law in each member state might not have been completed at the time of putting this publication to print.

Please refer to www.mitsubishi-motors-europe.com and select the web site of the Mitsubishi Motors service network in your country of residence, or call the National Mitsubishi Motors Customer Assistance Centre for further details.

OUTSTANDING AFTER SALES FOR CAREFREE MOTORING

Around 2,500 Mitsubishi Motors Authorised Service Points in Europe are committed to helping you wherever you are.

PROFESSIONAL SERVICING

Even new cars require regular maintenance and servicing. Not just to guarantee your mobility, but also for the safety of you and your passengers. Trained professionals using specialist diagnostic equipment and original parts at your Mitsubishi Authorised Service Point are ready to oblige. You'll be advised about the cost beforehand, so there will be no unpleasant surprises when you return to pick up your vehicle.

MITSUBISHI MOTORS GENUINE PARTS

Even the smallest technical faults can lead to accidents. Therefore, all Mitsubishi Motors Genuine Parts have been developed and tested to stringent quality standards. It is recommended to use Mitsubishi Motors Genuine Parts in order to maintain the safety and integrity of your vehicle and that of your passengers. Mitsubishi Motors Genuine Parts are available at all Mitsubishi Authorised Service Points. We are proud to regularly score top in After Sales quality surveys.

COMPREHENSIVE WARRANTY – OBVIOUSLY

All new Mitsubishi vehicles come standard with a comprehensive 5-year warranty or up to a maximum of 100,000 km (61,000 miles), whichever comes first. The anti-corrosion perforation warranty covers rusting through for the first 12 years, depending on the model you purchase. The reliability statistics for Mitsubishi vehicles are impeccable, but in the unlikely event that you do need help, we offer MAP.

MAP – FREE BREAKDOWN ASSISTANCE

In order to demonstrate our commitment to your mobility and the faith we have in the reliability of our vehicles, you will receive a free MAP card valid for 5 years with your new Mitsubishi. MAP stands for Mitsubishi Motors Assistance Package, and with the MAP card in your pocket, your mobility is guaranteed in more than 30 countries throughout Europe. Should you ever need assistance in the event of breakdown, accident, theft or vandalism – wherever you are, 24 hours a day, 7 days a week – just call the number on your card and the problem will be fixed on the spot. If it's more serious, your car will be taken to the nearest Mitsubishi dealer and you'll be offered services such as a hotel, continuation of journey, a replacement car and vehicle repatriation. And if you continue to have your vehicle serviced at a Mitsubishi Authorised Service Point after the first three years, your mobility will be guaranteed for an additional year or up to the next service interval (whichever comes first) until your vehicle is 10 years old.

DRIVESTYLE

Accessories by Mitsubishi Motors – everything's got "Drivestyle". They are the perfect products for your car's individuality. It's the style that goes with the sensation. Drivestyle is the individual enhancement of your Mitsubishi. It covers all your car care needs: from Wax Shampoo and Polish to Wheel Rim Gel, from Cockpit Lotion to Leather Treatment and from Insect Remover to Screen Wash – all have been produced using new ingredients designed specifically for your new Mitsubishi. They'll ensure it looks, feels and smells brand new for years to come.

Please ask your Mitsubishi Authorised Sales/Service Point for the Drivestyle Car Care brochure containing more detailed information.

PAJERO

Drive@earth

BORN WILD, RAISED WITH ELEGANCE

The ultimate performance and high quality features in one package. The one-and-only all-round SUV of it's kind, the new Pajero will satisfy your driving desire in any scene; riding the city streets, cruising the night out on the town, or diving into the wild off-road. Experience a whole new level of exclusive—a promise of a life, bold and beautiful.

IMPRESSIVE VIEW

As soon as you are behind the wheel, relaxing in the soft, luxurious leather seating, high above everyone else on the road, you will get an imposing and impressive view on life. Every single detail within its refined interior reflects Pajero's design quality its silver and leather gear shift knob, meter detailing and the leather steering wheel prove irresistible to the touch.

And just looking at the dashboard is enough to make your pulse quicken, too. Its soft dash panel, door trims and rich materials reflect Pajero's luxurious style. Its multi-functional SD navigation system boasts a SD card so it can store more than enough maps.

STYLE AND SPACE

From each of Pajero's rows of seats, you will find yourself stretching out and relaxing in plenty of space. There is not only a surprising amount of cargo room but other storage space, too – in one quick move, you can easily transform Pajero from a 2-seat heavy load carrier to a 5-seat off-roader or a 7-seat luxury family transporter. The possibilities are as versatile as the

seats themselves. The Pajero's 3rd row of seats can be quickly stowed under the floor, leaving a flat loading base with generous cargo room height. The headrests can be stored away under the seats to maximise room. The 3rd row can also be removed entirely to create an under floor storage compartment.

SEATS 

SEATS  +      

DESIGN DETAILS

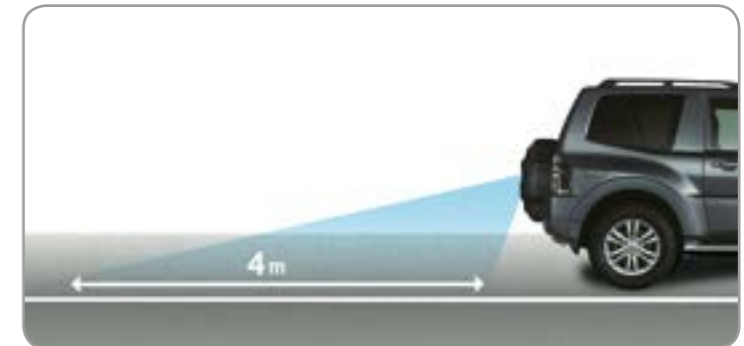

Pajero showcases lots of carefully considered design details. The high-contrast back-lit meters remain lit up at all times to improve visibility. During the night, the cabin also takes on a calm-inducing ambient light and the Bluetooth® hands free cellular phone interface

system with voice control lets you converse with friends while keeping both hands on the wheel. Other details like the rear manual air-conditioner controls make a big difference to those travelling in the back.

ENTERTAINMENT AND TECHNOLOGY

With the help of navigation in the impressive Mitsubishi Multi Communication System you can be guided by clear, turn-by-turn directions shown on the high definition touch-screen. And as soon as Pajero reverses, the screen then displays the images taken by the rearview camera, which makes tight-space parking effortless.

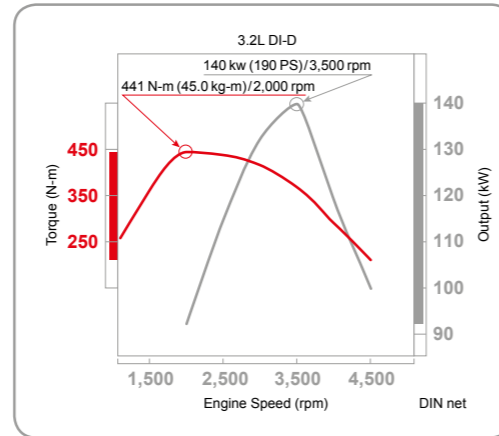

At the heart of Pajero's entertainment console lies a premium audio system specifically designed for Pajero by Rockford® Corporation. Being surrounded by 12 optimally positioned speakers (for 5-door models, 8-speakers for 3-door models), you get the most spectacular in-car theatric acoustic atmosphere possible. A powerful rear subwoofer gives out deep, punchy bass while eleven other premium speakers deliver rich stereo surround sound.

POWER AND PERFORMANCE

Pajero demands an engine with enough strength and muscle to conquer all punishing terrains. Not only is Pajero more powerful, it is also faster and quieter too.

An advanced 3.2-litre Common Rail Direct Injection Diesel (DI-D) engine gives the Pajero the power to go anywhere, quickly, smoothly and quietly and is available in automatic transmissions. A Diesel Particulate Filter significantly lowers exhaust emission levels further.

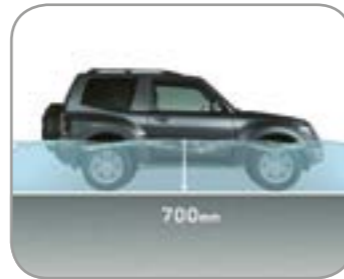

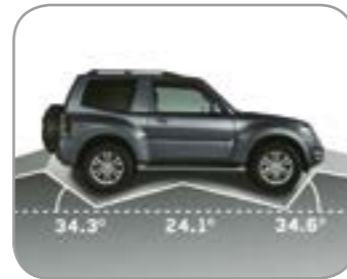

INVECS-II WITH SPORTS MODE

Designed to make your life easier our Intelligent and Innovative Vehicle Electronic Control System (INVECS-II) is Pajero's smart-thinking, five-speed automatic gearbox. Shift the lever across into Sports Mode position and just by pushing the lever up or down in the appropriate direction, you will shift gears almost instantly and smoothly.

STING THE OFF-ROAD LIMITS

Pajero's superior approach angle has proved invaluable when covering more challenging, rough terrain and our legendary Super Select 4WD II (SS4-II) technology gives Pajero the capability to get you into and out of just about anywhere. Whether you want to tackle steep grassy slopes, wade through water over half a metre deep, clamber over tall, awkward obstacles or incline angles of up to 45°, there is almost nowhere off-limits for Pajero.

Figures are for 3-Door models. Please refer to specification for 5-Door models.

*Weights are for demonstrational purposes only. Calculation based upon yacht weighing 1,240kg and horse box weighing 770kg. Only for Pajero 5-Door with 18" wheels.

TOWING CAPACITY 3,500 KG = 2.8 YACHTS = 4.5 HORSE BOXES*

AWC (ALL WHEEL CONTROL)

More than a technology, AWC is our guiding philosophy. Incorporating an array of innovative systems into an integrated performance and control network, AWC delivers precise traction, power and slip control for each wheel independently to ensure complete driver control even in extreme handling conditions.

Combining the electronically controlled Super Select 4WD II (SS4-II) system with the Active Stability and Traction Control (ASTC) system, AWC provides incredible grip and handling. Simply select the best drive mode on the gearshift panel and the Pajero alters the drive train to deliver secure steering under the most challenging driving conditions.

The SS4-II is the most impressive and sophisticated 4WD system that we have ever developed. It allows you to change from the fuel-efficient 2WD to 4WD while the car is travelling at speeds of up to 100km/h – ideal when the road surface suddenly becomes slippery. When the going gets tough, you can lock the centre differential to evenly distribute power to both axles and maximise traction.

For ultimate off-road ability, a low ratio mode can be selected which almost doubles effective engine braking in any gear, giving Pajero sufficiently low gearing to easily cope with very steep inclines, deep snow or thick mud. Super Select 4WD II (SS4-II) really does give you the best of all possible worlds.

2H (2WD high range)

Ideal for cities and motorway driving, the rear wheel drive mode gives a quiet ride with smooth on-road performance.

4H (4WD high range)

With 4WD engaged, front/rear torque split shifts from 33:67 up to 50:50 for added traction and safety, especially when driving in adverse weather conditions or when towing.

4HLC (4WD high range with locked centre differential)

By equally distributing power between front and rear wheels, this mode helps maintain traction on low-grip surfaces.

4LLC (4WD low range with locked centre differential)

The lower gear ratio maximises low-end power for climbing and enables controlled steep descents. It also helps you get out of sticky situations like deep mud, sand or snow.

REAR DIFFERENTIAL LOCK

For really extreme conditions you also have the option of locking the rear differential, for side-to-side locking of the rear axle. If for example, one of the rear wheels loses traction, with the rear differential lock engaged the other wheel will always keep on moving, to ensure you do not get stuck.

ADVANCED 4-WHEEL INDEPENDENT SUSPENSION

A front double wishbone suspension and a multi-link rear axle, all with coil springs, ensure that each wheel moves independently to the wheel on the opposite side of the axle. This ensures a smooth comfortable ride and confident handling over every conceivable type of terrain.

Pajero's improved suspension settings not only reduce body roll, they also provide a safer ride without compromising the sheer thrill of the drive.

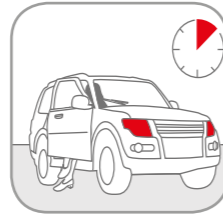

ETACS, YOUR COMFORTABLE ASSISTANT

Mitsubishi Motors' Electronic Time and Alarm Control System (ETACS) allows you to easily operate a wide range of features for added safety, comfort and convenience. Certain ETACS comfort functions can be customised by your Mitsubishi Motors dealer.

AUTO-LIGHT AND RAIN SENSOR

The auto-light sensor automatically activates the headlamps as soon as it gets dark. The rain sensor activates the windshield wipers automatically when moisture is detected on the windshield.

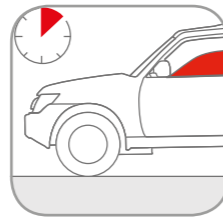

HEADLAMP AUTO-OFF FUNCTION

After you have turned off the ignition and got out of the car, the headlamps are automatically switched off, preventing the battery from being drained.

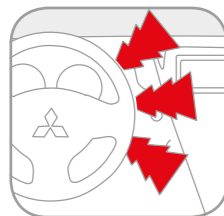

KEYLESS ENTRY SYSTEM

Makes it possible to lock and unlock the doors and tailgate and to fold and unfold the door mirrors with the remote key.

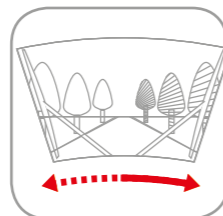

POWER WINDOW TIMER

After shutting off the engine, the power windows can be operated for 30 seconds. When the driver's door is opened within 30 seconds after shutting off the engine, power windows can be operated for 30 seconds again.

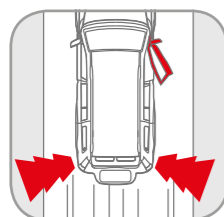

TURN INDICATOR WITH COMFORT MODE

When the indicator lever is tapped briefly, the indicator will flash three times and then stop - allowing you to concentrate on manoeuvring and therefore making driving easier and safer.

SPEED SENSITIVE WIPERS

When the front wiper is set to intermittent, a speed sensor changes the wiper interval to suit the car's speed for better visibility.

OPEN DOOR ALARM

If any door is still open while the car is moving, a buzzer will alert you.

For a complete list of ETACS functions, please consult your Mitsubishi Motors dealer or refer to your owner's manual.

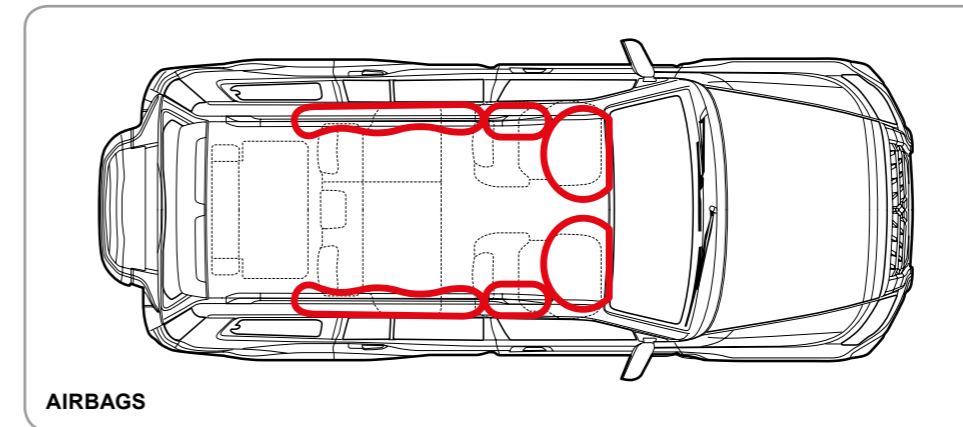

SAFETY MEASURES

The Pajero does not just look ultra protective and tough — it is. Sitting high up in the Pajero's driving position provides you with a clearer view of obstacles on the road.

Bright Xenon (HID) headlamps offer increased luminosity to improve visibility and feature individual headlamp washers and an auto-levelling function. An electronic chromic rearview mirror reduces any glare from headlamps behind you.

Pajero's improved brake performance and Active Stability and Traction Control (ASTC) with Brake Assist system provide a reassuringly safe drive.

All seats are equipped with three-point seat belts with ELR (Emergency Locking Retractor) and the side power windows have automatic anti-trapping devices that instantly stop them when they detect anything in the way when closing.

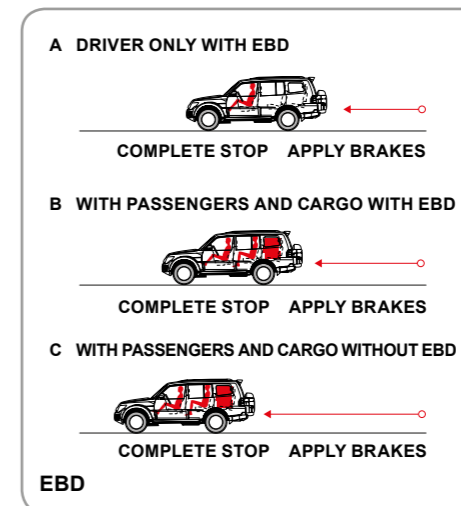

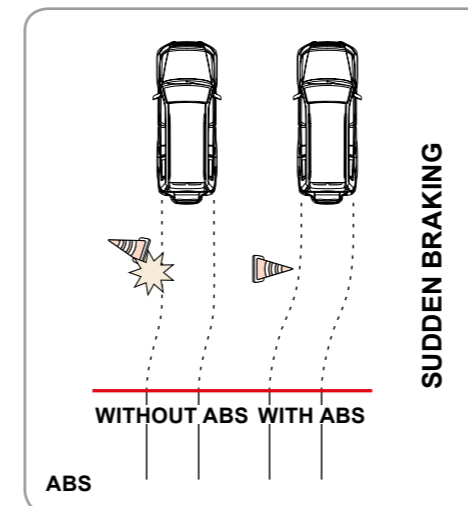

IMPACT ABSORBING BODY

Pajero's strengthened monocoque body with built-in frame provides a highly rigid structure, with crumple zones around the engine to absorb impact energy to ensure everyone is safe and feels safe.

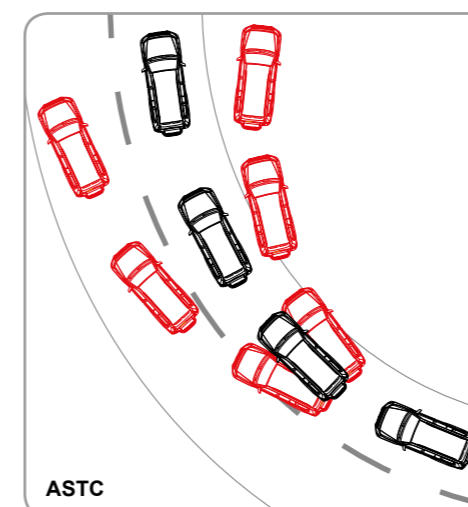

AIRBAGS

In the event of a collision Pajero not only has dual-stage front airbags but also side airbags and curtain airbags for ultimate protection to driver and passengers.

MULTI-MODE ABS WITH EBD

Pajero's ABS (Anti-lock Braking System) fitted with EBD (Electronic Brake-force Distribution) ensures even, efficient distribution of braking power to each wheel regardless of how many people are travelling inside and whatever the cargo load and road surface. This provides you with maximised braking power and driving stability.

ASTC WITH BRAKE ASSIST SYSTEM

Active Stability and Traction Control is Pajero's state-of-the-art safety system. It regulates braking force to each wheel during cornering to ensure excellent stability. The system also maintains optimum traction in all conditions, on and off-road. ASTC prevents tyre spin on slippery surfaces and minimises the risk of drift caused by over-accelerating in corners. The Brake Assist system increases braking pressure when panic braking is detected and helps assist faster and safer braking in emergency situations.

AUTOMATIC HIGH BEAM

This in-vehicle camera sensor continuously monitors headlamps and tail lights of oncoming and preceding vehicles. If a nearing vehicle is detected by the camera sensor, the Automatic High Beam system automatically switches to low beam. Once there are no oncoming or preceding vehicles with headlamps or tail lights turned on in close proximity, the system immediately reverts back to high beam. Without the need for manual operation, driving is even more safe and comfortable.

LED DAYTIME RUNNING LAMP WITH POSITION LAMP

Beyond enhancing safety by increase visibility when driving during the daytime, the LED daytime running lamps add a touch of style for good measure.

CHOOSING THE EQUIPMENT LEVEL

INFORM 3-DOOR / 5-DOOR

Key features Inform

- 17" alloy wheels
- Chrome front grille
- Black front skid plate and rear bumper centre cover
- Automatic air-conditioning
- LW/MW/FM CD player
- USB port
- Fabric seats
- Silver power window panels
- Tonneau cover
- Third row seat (5-Door only)
- Dual-stage front airbags
- Multi-mode ABS and EBD
- Active Stability and Traction Control (ASTC)
- Brake Override System
- Mechanical theft protection
- Metallic/Aluminium print interior panels
- Super Select 4WD II (SS4-II) system
- Tyre Pressure Monitoring System
- High-grade silence package
- Keyless entry system with 2 transmitters and master key (folding type x 2)

INVITE 3-DOOR / 5-DOOR

Key features Invite (in addition to Inform)

- Colour-keyed outer door handles
- Colour-keyed electronically controlled door mirrors with defoggers, turn lamps and approach lights
- Colour-keyed rear license plate garnish (5-Door only)
- Side airbags and curtain airbags
- LED foot light (front and rear)
- Rear differential lock

INTENSE 3-DOOR / 5-DOOR

Key features Intense (in addition to Invite)

- 18" alloy wheels
- LED daytime running lamp with position lamp
- Xenon (HID) headlamps / automatic high beam
- Headlamp washers
- Side steps
- Privacy glass
- Auto-light and rain sensor
- Rear parking sensors
- 4-spoke leather-wrapped steering wheel with remote control for audio and cruise control
- Bluetooth® hands free cellular phone interface system with voice control
- Rear manual air-conditioner (5-Door only)
- LW/MW/FM CD player, display audio with touch panel (digital clock, audio information and rearview camera)
- 5-way driver's power seat
- Driver's and passenger's seat heater
- Chrome inner door handles
- Extendable sunvisors with vanity mirror/illumination
- Electronic chromic rearview mirror

INSTYLE 3-DOOR / 5-DOOR

Key features Instyle (in addition to Intense)

- Chrome outer door handles
- Chrome door mirrors
- Black roof rails
- Electronically controlled tilt and sliding anti-trapping sunroof
- Leather seats with passenger's 4-way power seat (5-Door only)
- Rockford Acoustic Design™ premium audio with 860 W and 12-speakers (5-Door only)
- Mitsubishi Power Sound System with 420 W and 8 speakers (3-Door only)
- Mitsubishi Multi Communication System with SD navigation (SD card, touch screen)

Urban	lit/100 km	10.3
Extra urban	lit/100 km	8.3
Combined	lit/100 km	9.0
CO ₂ , combined*2	g/km	238
Towing capacity*2		
With brake	kg	2,800/3,000 (INTENSE and INSTYLE)
Without brake	kg	750
Climbing ability		35.0°
Approach angle		34.6°
Ramp break-over angle		24.1°
Departure angle		34.3°
Inclination angle		45.0°
Max. axle travel		
Front	mm	220
Rear	mm	270
Min. turning radius	m	5.3
Wading depth	mm	700
Suspensions		
Front		Double wishbone coil springs with stabiliser bar
Rear		Multi-link coil springs with stabiliser bar
Brakes		
Front		Ventilated discs (2-pot)
Rear		Ventilated discs
Steering Type		Rack-and-pinion (power-assisted)
Weights and Loads		
Kerb weight*2	kg	2,085–2,185
Gross vehicle weight	kg	2,665
Max. roof load	kg	100, 80 (INTENSE)
Cargo room volume (VDA)*3	lit	290–640

*1: Measured by Mitsubishi Motors Corporation

*2: Fuel consumption, CO₂, towing capacity and kerb weight figures vary depending on equipment level

*3: Measurements from up to the upper end of 2nd seatback–up to the upper end of front seatback

TECHNICAL SPECIFICATIONS 5-DOOR

■ Available

		3.2 litre DI-D
		5-speed automatic
		V98WLYHJL6
INFORM		■
INVITE		■
INTENSE		■
INSTYLE		■
Engine		
Type		DOHC 16-valve in-line 4-cylinder, diesel, intercooled turbocharged
Total displacement	cc	3,200
Injection system		Electronic Common Rail direct injection multi-point fuel injection
Emission level		Euro-6b
Emission control system		Oxidation catalytic converter + Closed DPF (Diesel Particulate Filter) + NOx trap converter + HC trap converter
Max. output	kW (PS)/rpm	140 (190)/3,500
Max. torque	N-m (kg-m)/rpm	441 (45.0)/2,000
Fuel System		
Fuel supply equipment		Common Rail Direct Injection
Fuel type (octane)		Diesel
Fuel tank capacity	lit	88
Transmission		
Clutch		Torque converter
Gear ratio		
1st		3.520
2nd		2.042
3rd		1.400
4th		1.000
5th		0.716
Reverse		3.224
Final		3.692
Transfer gear ratio		
High		1.000
Low		1.900
Performance		
Acceleration (0–100 km/h)	sec	11.1
Max. speed*1	km/h	180
Fuel consumption*2		
Urban	lit/100 km	10.5
Extra urban	lit/100 km	8.6
Combined	lit/100 km	9.3
CO ₂ , combined*2	g/km	245
Towing capacity*2		
With brake	kg	3,300/3,500 (INTENSE and INSTYLE)
Without brake	kg	750
Climbing ability		35.0°
Approach angle		34.5°
Ramp break-over angle		22.2°
Departure angle		24.5°
Inclination angle		45.0°
Max. axle travel		
Front	mm	220
Rear	mm	260
Min. turning radius	m	5.7
Wading depth	mm	700
Suspensions		
Front		Double wishbone coil springs with stabiliser bar
Rear		Multi-link coil springs with stabiliser bar
Brakes		
Front		Ventilated discs (4-pot)
Rear		Ventilated discs
Steering Type		Rack-and-pinion (power-assisted)
Weights and Loads		
Kerb weight*2	kg	2,265–2,375
Gross vehicle weight	kg	3,030
Max. roof load	kg	100, 80 (INTENSE)
Cargo room volume (VDA)*3	lit	136–1,069

*1: Measured by Mitsubishi Motors Corporation

*2: Fuel consumption, CO₂, towing capacity and kerb weight figures vary depending on equipment level

*3: Measurements from up to the upper end of 3rd seatback–up to the upper end of front seatback
